

Project Initialization and Planning Phase

Date	30 September 2026
Team ID	SWTID-2026-7291
Project Name	Weather Wise
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

A problem statement helps us understand the customer's challenges and identify the need for a suitable solution. For Weather Wise, the focus is on helping users access accurate and timely weather information in a simple and convenient way.

I am (Customer)	A student, traveller, or daily commuter.
I'm trying to	Check current weather conditions and forecasts before planning daily activities.
But	Weather information may be scattered across different platforms or difficult to access quickly.
Because	Users need timely updates about temperature, rainfall, humidity, and other weather conditions to make informed decisions.
Which makes me feel	Uncertain and unprepared when planning daily activities or travelling

Example:

I am (Customer)	I'm trying to	But	Because	Which makes me feel
A student who travels daily to college.	Check the weather conditions before leaving home.	I cannot always get accurate and timely weather updates.	Weather changes unexpectedly, and I need to know about rain, temperature, and other weather conditions.	Unprepared and worried about my daily travel plans.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student who travels daily to college.	Check the weather conditions before leaving home.	I cannot always get accurate and timely weather updates	Weather changes unexpectedly, and I need to know about rain, temperature, and other conditions.	Unprepared and worried about my daily travel plans
