

Project Demo Planning

Date	30 September 2026
Team ID	SWTID-2026-7291
Project Name	Weather Wise
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduces the Weather-Wise project, explains the challenges of accessing weather information, and presents the main objectives of the application.	2	Swetha B
2	Solution Overview	Explains the proposed solution, project architecture, technologies used, and how the application provides weather information to users.	2	Sofiga P
3	User Interface Demonstration	Demonstrates the application interface, navigation, design, and user-friendly features.	2	Saranya R
4	Live Weather Feature Demonstration	Shows the location search functionality, current weather conditions, and forecast details available in the application.	3	Mohamed Irfan A
5	Testing, Results & Conclusion	Explains the testing process, demonstrates the project outcome, highlights its benefits, and concludes the presentation.	2	Solution Overview

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Begin by introducing the Weather-Wise application and explaining the need for an accessible weather forecasting system.
2	Solution Overview	Present the proposed solution, technologies used, and overall working process of the application.
3	Live Feature Demonstration	Demonstrate the interface, location search, current weather details, and forecast features using the application.

4	Q&A Session	Answer questions from the evaluators, clarify doubts, and explain the project's functionality and future enhancements.
